Navigation Using the iPad

Use the front and back controls in the bottom right corner to navigate through the course. Pages do not advance with normal iPad finger swipe across the screen.

Question mark takes you to visual site map with links to all the pages in the course.
Introduction

Whether you are new to the field of conservation or have dedicated your entire career to this cause... whether you are an employee of a state or Federal agency, or work in the private sector... your mastery of wildlife conservation should include a thorough understanding of America's Wildlife and Sport Fish Restoration Program.

Whitetail deer reach record levels under wildlife management
